

SR 560C

ULV MISTER (Cold Fogger)

TECHNICAL DATA

Engine Type	-	2-Stroke Air Cooled (STIHL Make)
Displacement (cu.cm)	-	56.5
Power Output (kW/hp)	-	2.6/3.5
Weight, Without Fuel (Kg)	-	11.2
Volume fuel tank (l)	-	1.5
Air Velocity (m/s)	-	101
Container Capacity (l)	-	13
Discharge Rate (l/min)	-	0.12 - 1.8
Vertical Range (m)	-	11.5
Horizontal Range (m)	-	12.0
Ignition Type	-	Electromagnetic
Carburetor	-	Diaphragm Type
Starter	-	Re-Coil Type

SR560c professional Ultra Low Volume Backpack system evenly spreads the fine particles to achieve best result in residual & conventional technique of disinfection it has long & wide reach for more successes in vector control.

Features

Environmental Friendly:- Fuel Vapour from the tank is redirected into the motor for combustion.

Energy Conservation:- Fuel consumption is least in its class.

Effective:- The anti-vibration system reduces the transfer of vibrations of the user. This reduces strain on the back muscles.

Compact:- With its space-saving design, this appliance can easily be stored in the back of your vehicle, and is ideal for use where space is limited.

Comfortable:- The unit is operated with the right hand, leaving the left hand free.
